1. General Reexamination and Master Plan Amendment dated December 6, 2021

Ashton G. Jones – Sworn

Senior Planner – Remington & Vernick Engineers

Mr. Jones reviewed the General Reexamination and Master Plan Amendment prepared by Remington & Vernick Engineers

The Master Plan has been continuously updated with various master plan documents – the 2006 Master Plan, reexamination reports in 2011 and 2012, Pinelands area amendment

Findings in this report address:

Major problems and objectives

Extent to which problems and objectives have been reduced or increased

Extent to which there have been significant changes

Specific changes recommended

Planning Board recommendations

Recommendations for the development of public electric vehicle infrastructure

The Reexamination Report concludes that while the Township has continuously updated various master plan documents (the 2006 Master Plan, reexamination reports in 2011 and 2012, Pineland's area amendment, various individual master plan documents, etc.), the Township should undertake a universal revision of the Master Plan. While the 2006 Master Plan updated the land use element, the most recent circulation element was drafted in 1990. Much has happened in the Township (Evesham Circle, etc.) and circulation patterns should be reevaluated and analyzed. Considering that various elements have been updated in various years, a comprehensive master plan update should be considered.

Public Comment –

Rosemary Bernardi – 10 Halifax Court – Sworn

Kings Grant resident

Feels communication on this matter needs to be better

Feels residents need more time to digest and review document

Impacts entire Township, especially the Kings Grant and Barton Run, Links Golf Course, former Barton Run Swim Club and Forest Area

Concerned about vacant properties
